6:30 p.m.

### Parking:

Parking for the meeting will be at:  
City of Anaheim Parking Structure  
200 South Anaheim Boulevard  
Anaheim, CA 92805

## Notice of Public Scoping Meeting For the Anaheim Regional Transportation Intermodal Center (ARTIC) Draft Environmental Impact Report

The City of Anaheim is responsible for preparing the Draft Environmental Impact Report (DEIR) for construction/ operation of the ARTIC Project. ARTIC will be an intermodal transportation facility that will replace the existing Metrolink/Amtrak station currently located south of Katella Avenue and west of the Orange Freeway (SR-57). The proposed ARTIC site is located on a 16-acre site south of Katella Avenue, east of SR-57 and Douglass Road, and west of the Santa Ana River.

ARTIC will be an iconic transportation facility where people will seamlessly move between transit services to reach Southern California activity centers and business districts. The station will accommodate passenger arrivals, departures and transfers with supporting retail, restaurants and passenger services within the building.

### Your Input Counts

Interested individuals, organizations, and agencies are invited to participate to learn more about the project and provide comments on what issues you would like to see addressed in the environmental document.

### Can't Attend?

Comments may be submitted by **March 8, 2010**
